GIRAFFE IN THE ROOM

Giraffe in the Room, not unlike an elephant in the room, can represent a topic that stands out. The giraffe symbolizes the long conversations people may have over these subjects. With my own connection and love of the animal, *Giraffe in the Room* felt like a fitting name for this casual conversation pod. So let's talk about it, for however long we need.

“Giraffe in the room is something people will talk about for a long time if it’s brought up.”

“Giraffe in the Room” is a phrase I stumbled upon when trying to name this pod. As a tall person, I’ve always been fond of the animal and even have a stuffed one named *Melman*. I want to create a safe space to casually chat about anything and everything, for however long is needed. “Giraffe in the Room” came along, and it felt right.
